EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR
 To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Ronald Koatz on July 2, 2008.

The application has been amended as follows:

- 2.1 In claim 1, line 2, delete "essentially";
- 2.2 In claim 1, line 4, delete "and";
- 2.3 In claim 1, line 8, after "solvent" add
- -- comprising
- 0 to 0.0001 wt. % of a surfactant;
- 0 wt. % of water;
- 0 to 50 wt. % of a cosolvent and
- a non-flammable, non-chlorine containing organic dry cleaning solvent --;

(support is found on page 8, lines 3-10).

- 2.4 In claim 2, line 1, after "cleaning" add --according to --;
- 2.5 Replace claim 3 with the following:
- -- 3. (Currently Amended) A <u>dry cleaning</u> process <u>for in-home dry cleaning</u> according to claim 2 wherein the <u>low aqueous dry cleaning</u> composition comprises from 0.01 to 0.8 wt. % of <u>the</u> [an] acid surfactant. --
 - 2.6 Replace claim 5 with the following:

-- 5. (Currently Amended) A <u>dry cleaning</u> process <u>for in-home dry cleaning</u> according to claim 2 wherein the water to cloth ratio (w/w) during the low aqueous dry cleaning step is less than 0.45. --

STATEMENT OF REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The terminal disclaimer filed on April 29, 2008 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of the US Patents No. 6,846,790; 6,900,166; 7,244,276 and co-pending US applications No. 10/540,711 and 10/538,999 has been reviewed and is accepted. The terminal disclaimer has been recorded.

The most pertinent prior art references known to the Examiner are listed on the attached forms PTO-892 and 1449. The claims in their present amended forms have overcome the prior art of record because none of them (i.e. Evers et al., Perry et al. in view of Goedhart et al. and Giampalmi et al.) teaches, discloses or suggests a dry cleaning process for in-home dry cleaning consisting of a low-aqueous step followed by a subsequent non-aqueous step with specific compositions, ingredients and ratio as disclosed by the applicants. In the art of dry cleaning, Evers et al. disclose a dry cleaning process with various low-aqueous and non-aqueous steps; Perry et al. teach the process of dry cleaning with low aqueous composition and Giampalmi et al. teach the dry cleaning process with three separate and distinctive steps of an aqueous step, a non-aqueous step and a low aqueous step. However, none of the prior art of record provides sufficient suggestion or motivation to have a dry cleaning process consisting of a low-aqueous step followed by a non-aqueous step with each step featuring the ratio and

ingredients within the proportions as taught by the applicants. Accordingly, the claimed invention, as a whole, would not have been obvious to one of ordinary skill in the fiber treatment art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to TRI V. NGUYEN whose telephone number is (571)272-6965. The examiner can normally be reached on M-F 8:00 AM to 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on (571) 272-1119. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
